MEMORANDUM FOR: Chief, Policy and Coordination Staff

FROM : Cord Meyer, Jr.
SA/DDCI

SUBJECT : CCPC Study

1. Thank you for sending me the final draft of the CCPC Study. I have the following suggestions to make:

a. Suggest you omit Recommendation K-2 on page 10 since the decision as to what analytical studies are required and in what order of priority can best be left to Dick Lehman and myself after discussion with Ambassador Heck and other consumers. You don't want to put the CCPC in the position of telling the consumers what they need.

b. On the basis of discussion with the DDI, suggest you redraft Conclusion B on page 5 to account for the fact that the kind of production effort you call for would in fact require substantial additional manpower costs.

c. Suggest you omit references to CONTEXT and that you clarify that you are not calling for an entirely new quick reaction mechanism, but rather adaptation of the existing system.

2. If you have difficulty with these changes, I do suggest that you, Dick Lehman and I get together on the problem.

Cord Meyer, Jr.
